# Rede de repositórios

The screenshot shows the OpenAIRE website interface. At the top, there is a navigation bar with language options (CS, EL, EN, ES, IT, LV, LT, PT, RO, SK) and a search bar. Below the navigation bar is the OpenAIRE logo and the text "Open Access Infrastructure for Research in Europe". To the right of the logo, there are social media links for Twitter and a "Membros do consórcio" section with a "logout" button. Below the logo, there is a horizontal menu with options: "Início", "Acesso Aberto na UE", "Depositar publicações", "Pesquisar publicações", "Apoio", "Notícias e eventos", and "Para Membros". The main content area is titled "Home" and features a section for "OpenAIRE compliant repositories", which is circled in red. This section lists several repositories, each with a "validated 1.1" badge. The list includes: "OpenAire Orphan Repository", "Academic Bibliography and Institutional Archive of Ghent University", "ArchiMer - Institutional Archive of Ifremer", "CERN Document Server (physics)", "Hyper Article en Ligne", "Universidade do Minho: RepositoriUM", "Lund University Publications", and "Repositório Comum". A "zotero" icon is visible in the bottom right corner of the browser window.

# DEPÓSITO NO REPOSITÓRIO

Introduza as palavras chave ou frases do assunto.

**Palavras Chave**

Introduza em baixo o resumo (abstract) no idioma principal do registo.

**Resumo**

Nome de projecto (obrigatório para registos ao abrigo do projecto OpenAIRE - <http://www.openaire.eu>)

**Projecto**

**Patrocinadores**

Descrição adicional e comentários.

**Descrição**

## Publications List:

EURO-BASIN will make 100% of all full/partially funded peer-reviewed publications freely available via 'green' open access, thus boosting visibility of the authors, use of the project's research, and providing free access to stakeholders across all sectors.

Publications listed in FP7 e-Infrastructure [OpenAIRE](#): (incl. 19 publications from a Special Issue in *Progress in Oceanography* 84, 2010 based on which the project proposal was constructed).

### EURO-BASIN publications

- Top-down, bottom-up or middle-out? Avoiding extraneous detail and over-generality in marine ecosystem models  
Allen, J. - Fulton, E.
- Defining the "to" in end-to-end models  
Mitra, Aditee - Davis, Cabell
- Comparing copepod time-series in the north of Spain: Spatial autocorrelation of community composition  
Bode, Antonio - Alvarez Ossorio, Maria Teresa - Miranda, Ana - López Urrutia, Angel - Valdés, Luis
- Ecosystem limits to food web fluxes and fisheries yields in the North Sea simulated with an end-to-end food web model  
Heath, Michael
- Spatio-temporal variability in fish-induced predation mortality on plankton: A simulation approach using a coupled trophic model of the Benguela ecosystem  
Travers, Morgane - Shin, Yunne Jai
- Plankton functional group models – An assessment  
Hofmann, Eileen E.
- Ecological modelling in a sea of variable stoichiometry: Dysfunctionality and the

### The WINNERS of the Open Access Training Competition 2011, are ...

winners of the Open Access fee-waivers giveaway are:

-  **Ana Sofia Ferreira**  
PhD Student at DTU Aqua  
wins a fee-waiver for Marine Ecology Progress Series (or any Inter-Research journal)
-  **Yongjin Xiao**  
PhD Student at Virginia Institute for Marine Science, USA, and
-  **Tosca Ballerini**  
Post-Doc at Old Dominion University, USA  
win each a fee-waiver for Biogeosciences (or any European Geosciences Union journal)

To participate in future Open Access trainings or keep in touch with developments, send an email to [oa\(at\)euro-basin.eu](mailto:oa(at)euro-basin.eu) or follow the [Twitter stream](#) on open access.

**Proteomics Research Infrastructure Maximising knowledge EXchange and access (XS)**

From 2011-02-01 to 2015-01-31 | PRIME-XS website

Genome sequencing initiated a new age in biology. Now, the emphasis is on the biological interpretation of the genome: zooming on the biological functioning of the gene-products, i.e. the proteins, emerging into a field termed proteomics. Protein levels depend not only on mRNA levels, but also on translational controls & regulated degradation, making the measurement of expression at the protein level...
