Perspectives on OA Policy :
The Institutional Perspective

BERNARD RENTIER, RECTOR, ULG

Institutional OA Policy : why ?

- To know what the University produces
  - Inventory
  - Full text
- To provide researchers with increased visibility for their scientific production
  - Visits
  - Downloads
  - Citations
- To reduce costs
  - …

The Basics

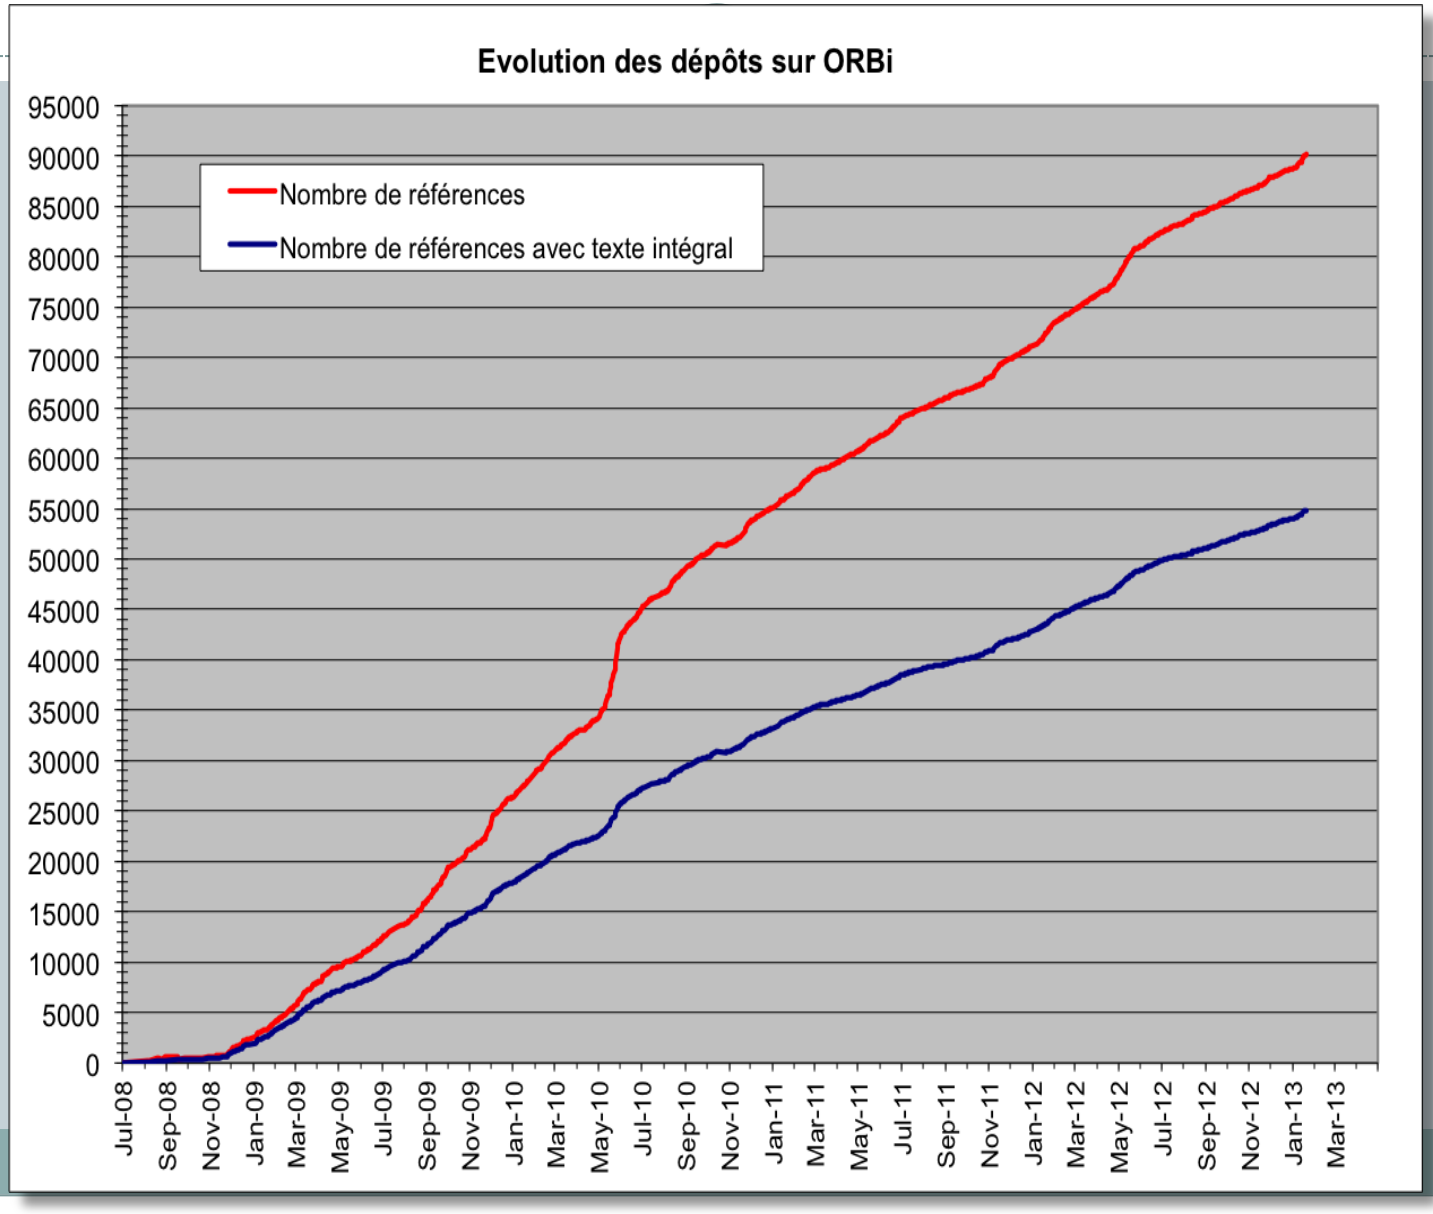
- It doesn't work by itself
- Need for an official institutional policy
  - Top down first
  - Bottom up comes easy later on
- An empty repository is useless
- A partly filled repository is partly useless
- An official institutional policy must be enforced or else it is inefficient
- You can force neither academics nor scientists to do things they don't want to do
  - Specially concerning their beloved work

The Basics

- So, don't impose anything
  - Just inform them that only those publications that are in the repository will be considered in any evaluation, promotion, grant submission, etc…
  - Link publications to address book

It works !!!

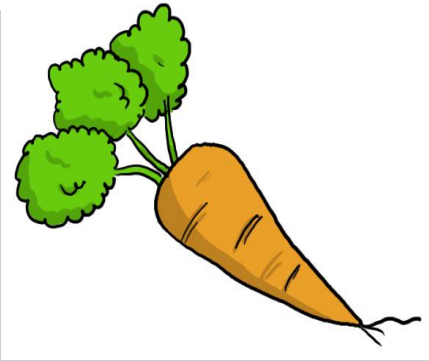
Historic evolution of the ULg repository



Institutional policy : what authorities must do

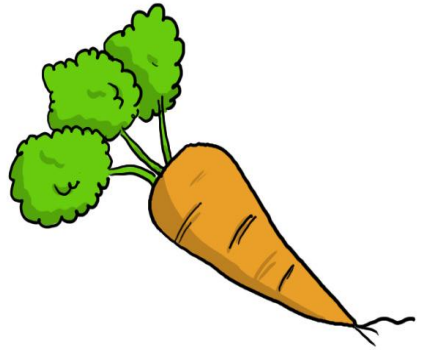
- « Mandate »
- Keep the author at the core
- Communicate
- Be coherent
- Reduce constraints

Favour the bottom-up approach



- Maximise the benefits for the researcher
  - Visibility
  - Long term preservation
  - Added value services :
    - dynamic reports
    - widget,
    - integration with F.R.S-FNRS (funder)
    - institutional reports
  - « Cosmetic » effects
    - Hit parade

Favour the bottom-up approach



- Maximise the benefits for the researcher
  - Automatic and contextual help
  - Users' guides
  - Pre-import & import (PubMed, WOS, Scopus, Nasa, EndNote, BibTex…)
  - Statistics, metrics (IF, IF5, Eigenfactor, citation indexes, h-index…)
  - Legal help
  - Training
  - Interactive Hot Line

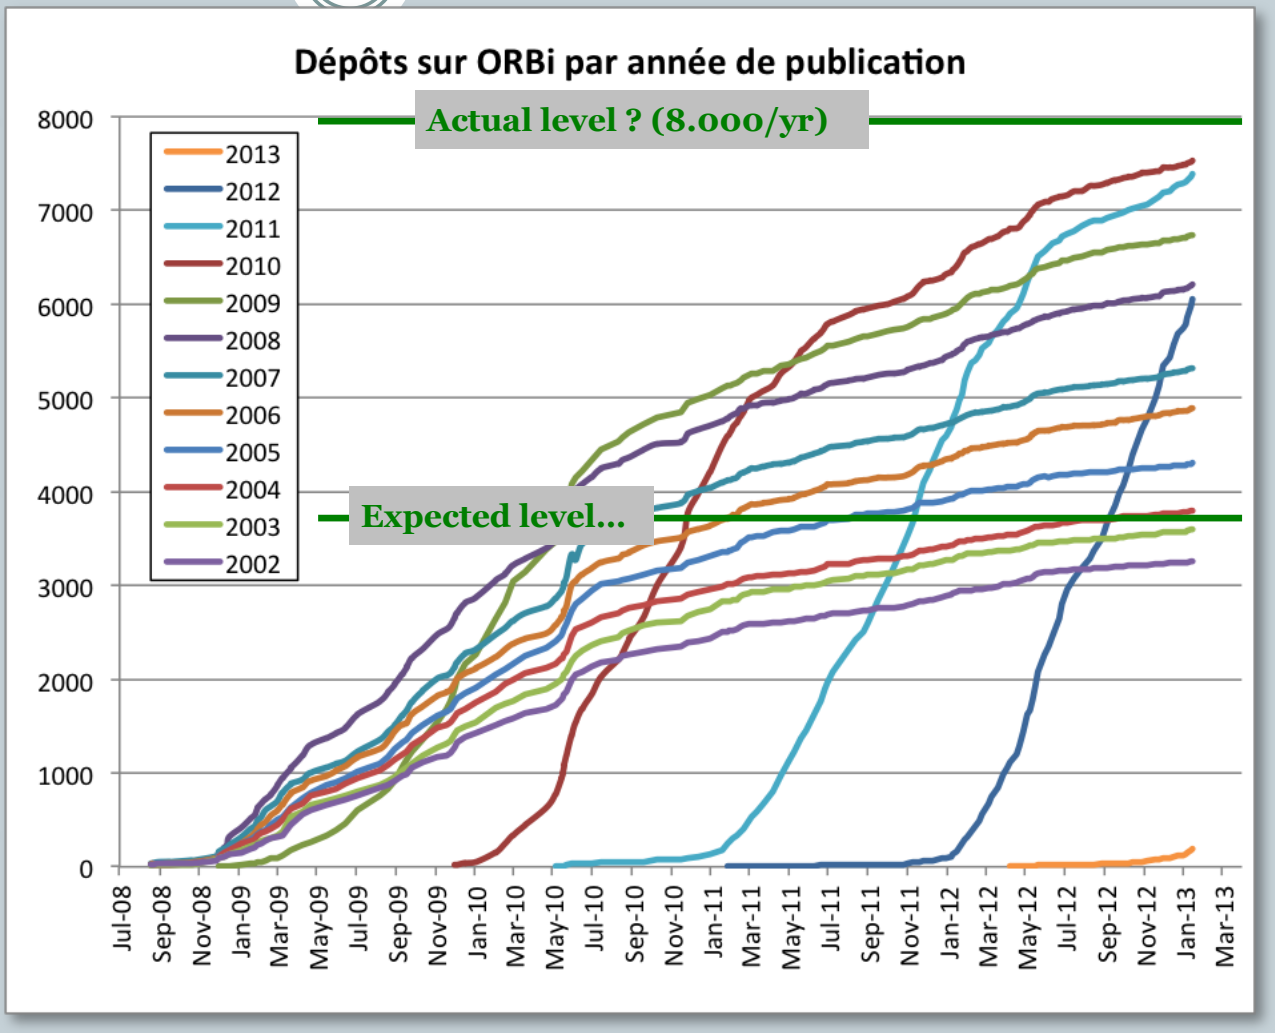
Nombre de références ayant été citées :	***65***
Nombre total de citations :	***1581***
h-index :	***25***

ORBi Today

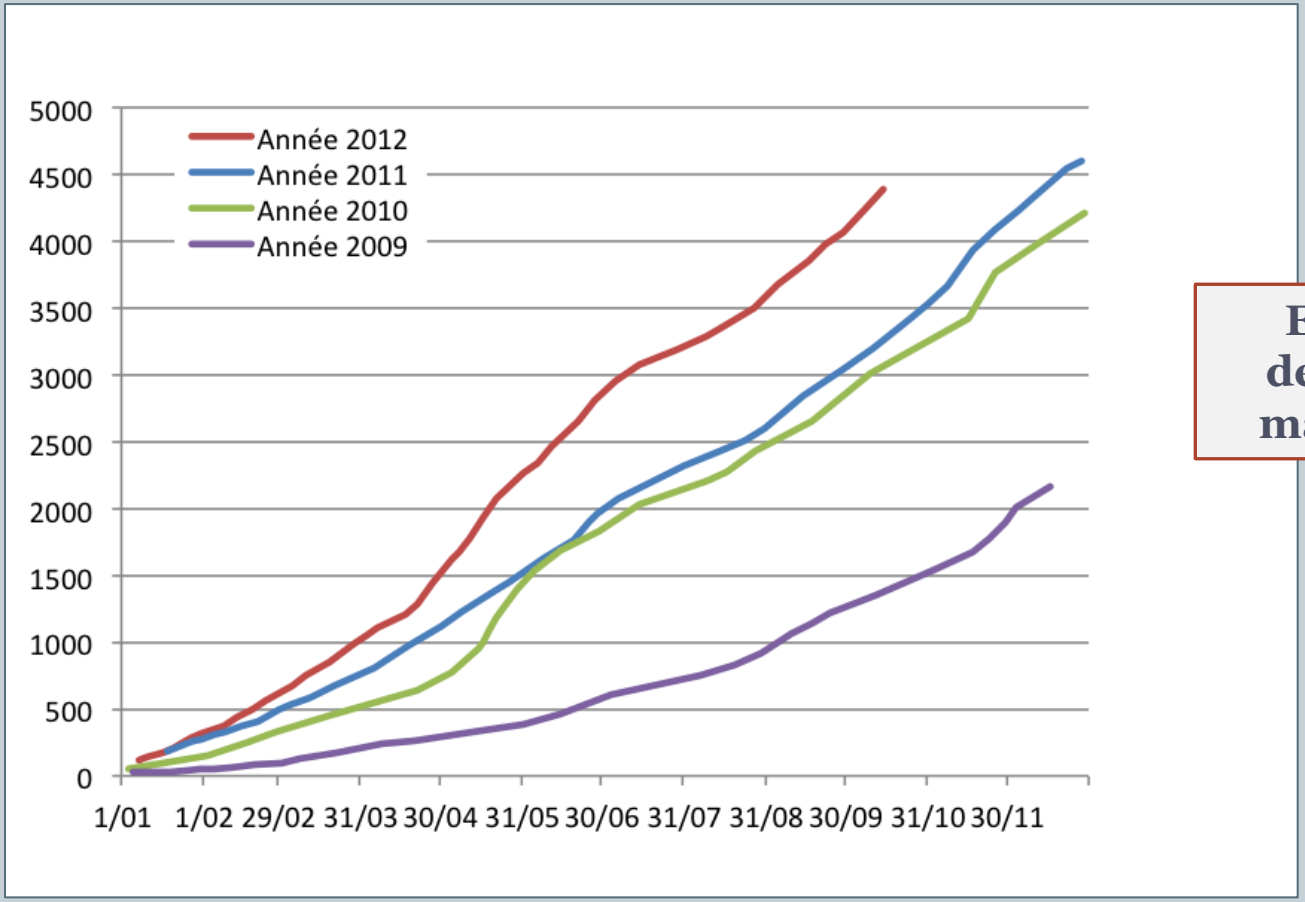
New maximum

ULg researchers publish more than we thought

Still work to do on previous years



Results :
Evolution of the deposits

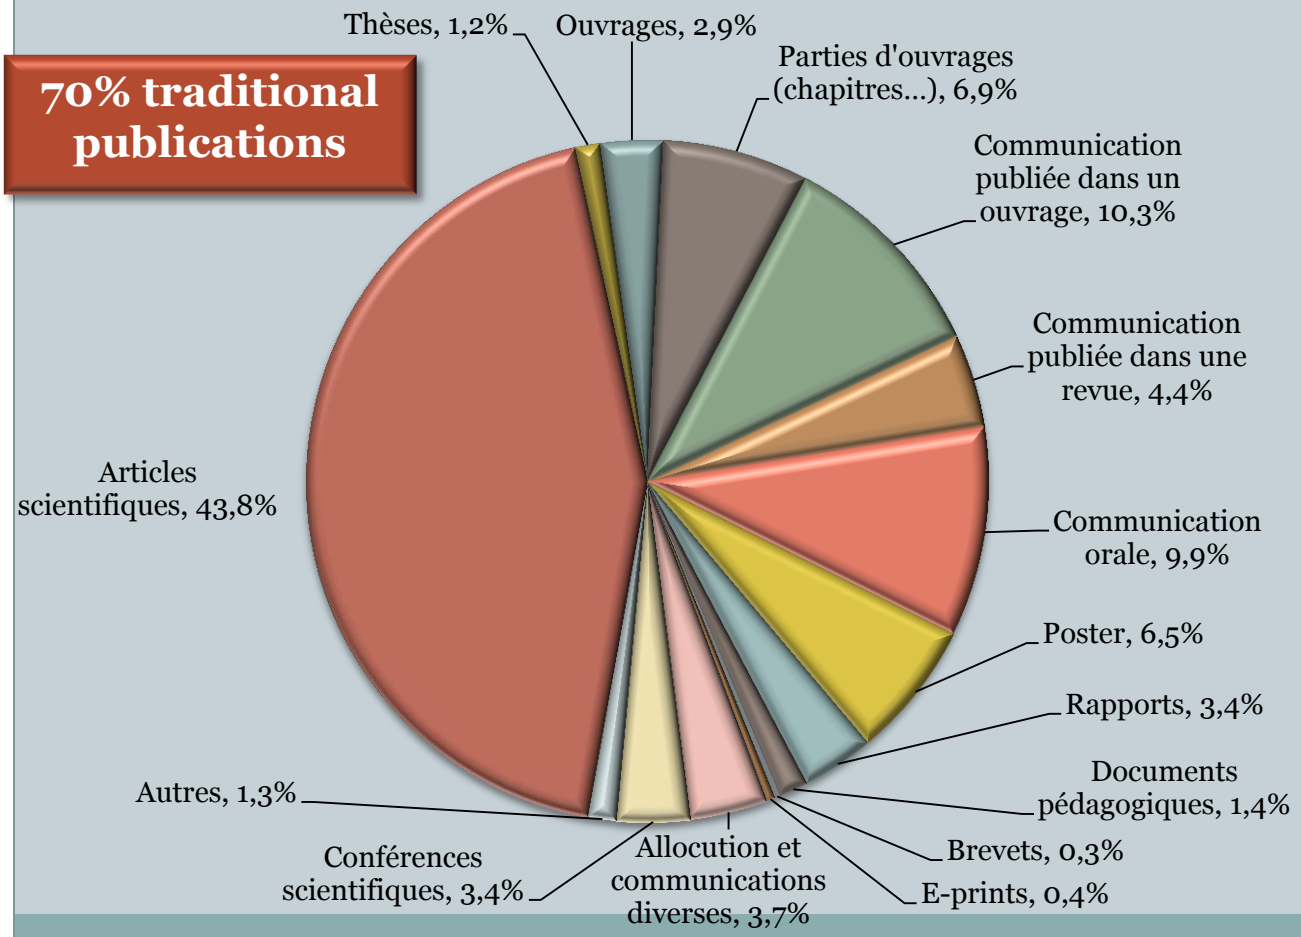


Each year, deposits are made earlier

Number of references published and deposited the same year

Types of documents deposited in ORBi

70% traditional publications



55,7% peer reviewed

Articles in périodicals (*) **:**
83,1 % peer reviewed

- **63,2 % vérified by the ORBi team**
- **19,9 % according to authors**

(*) including published communications

Evolution of the deposits (October 2012)

- **32.700** *'peer-reviewed'* articles out of **38.000** (86%)
- **3.154** *'peer-reviewed'* communications out of **3.790** (83%)

- **47.992** *'peer-reviewed'* documents of all types out of **86.124** (55,7%)

ORBi Visibility

- Excluding spiders :
  - 1.9 million views
  - 980 K downloads
  - 2012 : 1,400 downloads/day
- Including spiders :
  - >8 million views
  - >2 million downloads

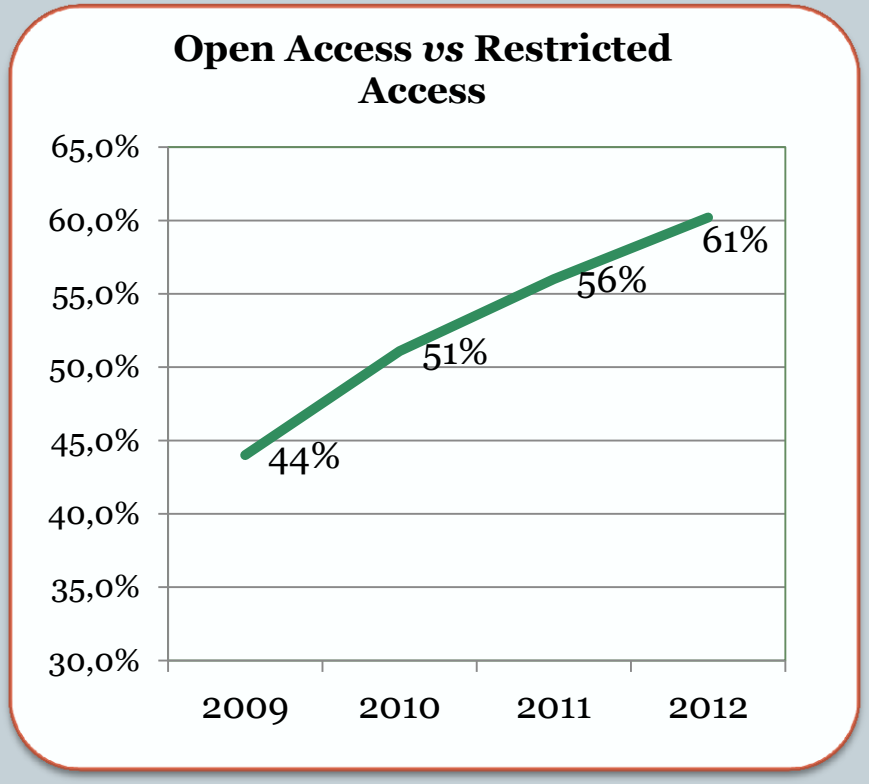
The role of the « back office »: Quality Control

- Authors concerned and responsible
- **But :**
  - Suppression : only by the ORBi team
  - Tools for redundancy detection
  - Tool to follow the « in press », « in progress », imports, …
  - Permanent updating of the periodicals data bank
  - Hot Line exploitation to improve the system and the help
  - Tool for incoherent data detection
  - Targeted comparisons with WOS, Scopus, …
  - Tools for false full text detection
  - Faulty behavior warned to author by the Rector himself

ORBi in 2012
Is Access Open ?

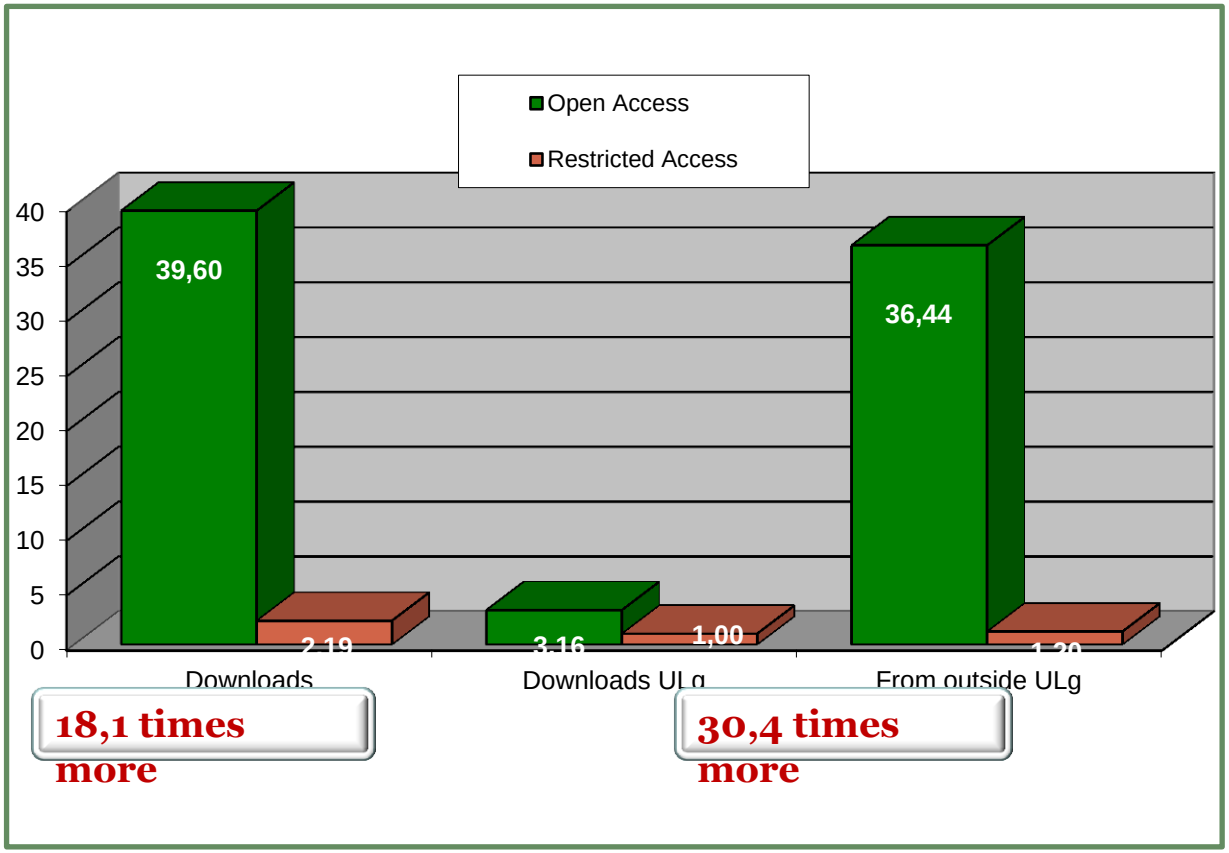
The proportion of OA deposits is increasing

- better compliance with OA principles
- fears tend to disappear
- authors become aware of OA advantages and benefits



ORBi in 2012
Better reach ?

Mean number of downloads for 2008-2011 references
(measured May 2012 on 359.257 downloads of 18.536 references with FT)



18,1 times more

30,4 times more

Proselytism ?

- National and international recognition
  - ROAR (among >1,900 Institutional Repositories):
    - 22nd worldwide in size
    - 1st worldwide in average growth speed (10-100/day)
    - 13th in fast growth speed (>100/day)(1st for months)
  - Webometrics :
    - 41st worldwide out of 1,522
- Belgian universities have adopted our mandate but
  - Without the incentive
  - Work done by librarians : little involvement, low responsibility feeling
    - ⇒ UCL : 25,3% FT
    - ⇒ ULB : 16,4% FT
- Many requests for presentation of ORBi and the ULg mandate worldwide
- Agreement with the University of Luxembourg » : « ORBi.Lu »

ORBi@misc.ulg.ac.be
http://orbi.ulg.ac.be

Thank you for your attention
